

"We could probably share this with other magic clubs."

That's what we eventually said as we built for two clubs of which I'm a member (SAM Assembly #7 in Omaha, Nebraska and IBM Ring 24 in Sioux City, Iowa) an online password-protected video library with magic routines for different skill levels. I don't suppose you'd like us to duplicate it and customize it (with its own header and password) for your magic club? We're adding a new teaching video each month. We figure based on our time constraints we could offer this to about half a dozen other clubs (if there were even that many who'd find it a helpful member resource).

You can visit a sample here to see if it might be a fit:

Sample Video Website: <https://vimeo.com/album/5548652>

Password: davearch

There's no catch. There's no cost. We just figured as long as we're going to all the work, it's not that difficult to create another site for your club and have our videos appear simultaneously on your site too. If you think it's something your members might enjoy (and I realize this offer might not be a fit at all), please let me know. Just contact me through my website below. Questions welcome. Dave
