Directions

Print the main emphases of the presentation in any order in the boxes on the far left end of each row. Print the same emphases in any order in the boxes across the top of each column. Place your index fingers on each of the mates from the left-hand boxes and the top—bringing your fingers down and across until they meet. Circle that number. Do this for each of the emphases. Add the five circled numbers to find your prize in the list below!
